

## Cargo Activity

1. Read the following story about your trip to the beach.  
You and your family (Mom, Dad, brother, and sister) are planning a day trip to the beach three hours away. Your mother figures that each person will need three small bags of snacks and three bottles of water for the trip to the beach and three small bags of snacks and three bottles of water for the trip home.  
Then, your Mom tells you that your family will be meeting your grandmother and grandfather at the beach! They are coming home with you for a visit! You can't wait to see them! Your Mom asks you to be in charge of packing the food and water for the trip. How many bags of snacks and how many water bottles do you need to pack for everyone for the entire trip?
2. Use the following task cards to help you figure out how many bags of snacks and bottles of water you will need.
