Temperature Team - Day 2

The surface temperature readings on this map are in degrees Fahrenheit. Circle each number with the corresponding color in the key. DO NOT shade in the circle.

Do you see a place on the map that might indicate a front, which is a narrow zone of air between two opposing air masses with different temperatures, humidity, or both? If so, draw a line to show its position.

Is it a warm front or cold front? How might it affect Dayton's weather on day 4? Report predictions to Weather Central.

KEY

Color	°F
Red	90s
Orange	80s
Brown	70s
Green	60s
Blue	50s
Purple	40s

0 200 mi
0 322 km
