

## Air Pressure Team Graph Day 3 - New York City

The graph below displays air pressure data for New York City on day 3. The data is recorded every hour.

Complete the graph by marking a dot on each hour. Ask your teacher for the data. Next draw a line to connect the dots. This makes a line graph.

Is the air pressure rising, falling, or staying about the same?

What type of weather do you think New York City is having on day 3?

What is your weather prediction for New York City on day 4?
